

Rank8 PCA top10 driver genes colored by 12-class category

Uncategorized  
Biofilm / matrix regulators  
Chemotaxis / motility regulators  
Envelope / LPS / O-antigen genes  
Metabolic bottleneck enzymes  
Response regulators  
Secretion systems / interbacterial competition genes  
Sensor histidine kinases  
Stress-response regulators  
Transcription factors / DNA-binding regulators  
Transporters / nutrient uptake systems  
Virulence master regulators / virulence structural genes
